

How to Study CPS 2200

About the Software: After installing the software, you enter the program by clicking on the course icon that appears on your desktop. The various components of the software menu are described in the illustration below.

	View Online Resources Select this option while online to log in to Faulkner Media My Account. You can verify your exam scores and access class resources (handouts, etc.) under Sessions.	HELP & QUICKLINKS
NEWS & EVENTS		You do not need to be online to access the software resources listed here but you will for the links to the online Help Desk at the Faulkner Media website.
When you're online, you can see recent class announcements here.	View Textbook Material This takes you to the text readings, the 1 st step in learning about each topic. While it is not necessary to be online to read the text, it is to access the links to tables, video clips, etc.	
	View Presentations Go to these mini-lectures & slides for the next step in studying a topic. You don't need to be online.	
	Exercises & Assessments You must be online to access the 4 Online Exams (Exercises) but not to use the practice tests and games also located here.	

HOW TO STUDY: Most successful students proceed through the course components in this order:

- 1) **View Textbook Material** -- **READ** the text for the first assigned topic in the section you are studying. This is the foundation of the course.
- 2) **View Presentations** -- Next, **LISTEN TO and VIEW** the topic presentation for additional insights & examples.
- 3) **Exercises & Assessment** – **TEST YOURSELF** on the topic you just studied. Select Practice Assessment to access the the practice questions for each topic. (You are NOT required to submit your practice scores.)
- 4) **View Textbook Material** -- **REPEAT Steps 1-3** for the remaining topics your exam will cover.
